

# CSABA HAND SANITIZER DISPENSER

## TOUCH-FREE ELECTRONIC HAND SANITIZER DISPENSER

### SPECIFICATIONS

Touch-free electronic hand sanitizer dispenser for deck-mounted installations. Activated by infrared sensor. For use with any non-proprietary hand sanitizer gel of the recommended viscosity. Chrome plated body, other finishes available. Includes 6L tank for high traffic areas (up to 6000 activations) or 1 liter bottle and bottle support (up to 1000 activations). Peristaltic pump that prevents clogging and back flow. Adjustable settings by optional remote control: gel dosage, tank refill, temporary off and reset to factory settings.

### OPERATION

Touch-free electronic hand sanitizer dispenser operated by infrared sensor. The hand sanitizer gel dispenser automatically activates when users place their hands within sensor range, providing a measured amount of gel (adjustable by remote control).

### APPLICATION

Touch-free electronic hand sanitizer dispenser for use in hospitals, banks, airports, supermarkets and other high traffic public areas. Plays a key role in public places where soap and water may not be available. Stern hand sanitizers can be used with any brand of non-proprietary hand sanitizer gel of the correct viscosity. All Stern liquid soap dispenser models are compatible with Ethanol, IPA Isopropyl Alcohol - Up to 80% and Alcolgel.
