

JUPITER 2040 H

TOUCH-FREE ELECTRONIC FLUSH VALVE FOR URINALS

SPECIFICATIONS

Touch free electronic flush valve for urinals. Activated by an infrared sensor. Shut-off valve and filter included. Pre-flush optional upon request. A 24 hours hygiene flush is included. Stainless steel panel. The following settings can be changed by using the Stern remote control: Sensor Range, Delay In, Delay Out, Reset and On-Off.

OPERATION

Touch-free electronic flush valve for urinals. The water will flush once the user moves away from the urinal.

APPLICATION

Helps washrooms stay clean and saves water. Ideal for educational institutions, gas stations or restaurants. In addition, its minimalistic style makes it perfect for any locations with high design standards.

ADVANTAGES

Drastically reduces water consumption

- No physical contact. Helps to protect users against cross contamination.
- Stainless steel panel
- Sensor settings adjustable by remote control
- Easy installation
