

MALMO

TOUCH-FREE ELECTRONIC WALL MOUNTED FAUCET

SPECIFICATIONS

Heavy duty wall mounted electronic faucet, activated by an infrared sensor. Powered by an internal 9V battery for theft prevention. Includes a low battery level indicator. Latching solenoid valve located inside the product for added vandal protection. Filters included. For cold or premixed water (single inlet). Malmo 1000 (two inlets) has a mixing handle for water temperature adjustment. Customizable settings by optional remote control: Sensor range, Security time, Delay In, Delay Out and On-Off. 24 hour mandatory hygiene flush option available upon request.

OPERATION

Touch-free electronic faucet operated by an infrared sensor. The faucet automatically activates when users place their hands within sensor range and deactivates when removed from the sensor range.

APPLICATION

Wall mounted faucet combining an elegant design with anti-vandal features. Helps washrooms remain clean, saves water and aids in cross contamination prevention. Ideal for hospitals, laboratories and medical clinics.
