

NEPTUNE 1042 T

TOUCH-FREE ELECTRONIC SHOWER CONTROL

SPECIFICATIONS

Touch-free electronic shower control. Operated by infrared sensor. With a mixer for water temperature adjustment for hot and cold water. Powered by a 9V battery or a 9V transformer. Battery version includes a low battery indicator included. Non return valves, filters and Thermostop at 38° included. All components are located inside the body for added vandal protection. Auto shutoff after 120 seconds of use. Adjustable settings by remote control: sensor range, security time, delay in, delay out, on-off and reset to factory settings. Includes an adjustable 24 hour hygiene activation.

OPERATION

Touch free electronic shower control. The shower would be activated once the user places their hands in close proximity to the sensor. Water flow will shut off when user places their hands in close proximity to the sensor again or once the factory set flow time of 120 seconds passes. Floe time is adjustable by remote control.

APPLICATION

Combines an elegant design with high quality into a vandal resistant product. Helps washrooms to stay hygienic, safe and water saving. Ideal for sport facilities and spas.
