

## TRENDY TOUCH B & E

Electronically operated self closing lavatory faucet, activated by touching the designated area in the faucet cap. For premixed water. Available with an externally mounted 9V battery or a 9V transformer. Latching solenoid valve is located above deck inside the product. Filters included. The faucet will automatically shut off after a flow time of 8 seconds have passed. The flow time is adjustable on site if required.

### OPERATION

When a user touches the designated area in the middle of the faucet's cap, a flow cycle of 8 seconds will be completed. If the user does not need more water, he can touch the designated area again to stop the water flow before the default flow time has passed.

### APPLICATION

Deck mounted faucet combining an elegant minimalist design with anti vandal features. Enables an easy installation and is long lasting even in the harshest installation sites. Helps washrooms to stay cleaner and save water. Prevents cross contamination.
