## ELECTRONIC WALL MOUNTED FAUCET

### SPECIFICATIONS

Electronic wall-mounted faucet for cold or premixed water, with a self-adjusting infrared sensor. Powered by a 9V transformer or battery box for 6 x 1.5V batteries. Chrome plated body. Other finishes available. With long spout. Sensor range is adjustable by remote control. Adjustable sensor settings by remote control: sensor range, delay in, delay out and security time. Faucet will automatically shut off after being used for more than 90 seconds. Sensor features a low battery level indicator.

### OPERATION

Touch-free electronic faucet operated by an infrared sensor. The faucet automatically activates when users place their hands within sensor range and stops when they remove them from the sensor range.

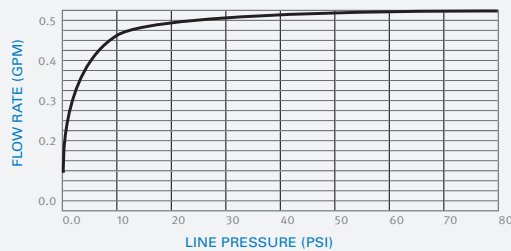

### APPLICATION

Wall-mounted faucet combining an elegant design with anti-vandal features. Helps washrooms cleanliness, saves water and aids in cross contamination prevention. Ideal for shopping malls, sport facilities and commercial and entertainment centers.
