

TUBULAR SOAP DISPENSER

TOUCH-FREE ELECTRONIC SOAP DISPENSER

SPECIFICATIONS

Touch free electronic soap dispenser for wall mounted installations. Activated by infrared sensor. Chrome plated body/AISI316 body, other finishes available. Include a 1 liter soap bottle and bottle support. Optional for remote installation: extension cable and longer piping.

The following functions can be performed by using Stern remote control: soap quantity selection, refill the soap tank, temporary off, coming back to factory settings.

OPERATION

Touch-free electronic soap dispenser operated by infrared sensor. The soap dispenser automatically activates when users place their hands within sensor range, providing a measured amount of soap (adjustable by remote control). If the users remove the hand before the full amount is dispensed, the soap dispenser immediately stops the soap flow.

APPLICATION

With the dripless automatic shutoff, this soap dispenser helps washroom organization and cleanliness. Combined with the touch-free electronic faucet, it creates a germ-free automated environment. Ideal for shopping malls, sport facilities and entertainment centers.
