

VENUS COMFORT 2032

TOUCH-FREE ELECTRONIC FLUSH VALVE FOR TOILETS

SPECIFICATIONS

Touch-free electronic W.C. flush valve. Activated by infrared sensor. With manual override flush button. Stainless steel panel. Shut-off valve, filter and low battery level indicator are included. Powered by a 9V battery or a 9V transformer. Battery versions include a low battery level indicator. With a 24-hour hygiene flush. Adjustable settings by remote control: sensor range, security time, delay in, delay out, on-off and reset to factory settings. Low consumption options and pre-flush operation are available upon request.

OPERATION

Touch-free electronic W.C. flush valve. Water will flush after the user moves away from the toilet. With optional dual flush activation: If the user spends less than one minute in front of the sensor, a half flush (3 liters) will take place. For more than one minute, a full flush (6 liters) will take place.

APPLICATION

Helps washrooms stay clean and saves water. Ideal for educational institutions, gas stations or restaurants. In addition, its minimalistic style makes it perfect for any locations with high design standards.
